# Van Gent Nest

# Van Gent Nest Facts & Benefits

## Animal friendly material

Coated plywood in the complete nest	High acceptance of the birds
-------------------------------------	------------------------------

## High quality hatching eggs

Roll away nest	Eggs always roll to the egg belt
Splitted egg belt	Eggs do not crack
Removable nestfloor	Easy to clean the nest pad
Perforated nestfloor	Dust and manure will fall through the nest floor

## Easy use

Foldable roof	Enable easy nest inspection
Removable nestfloor	Possible to clean the nest optimally
Simple construction	Quick assembling and easy cleaning

## Closeable nest

Unique expulsion fence	Made of 2 pieces, creates the highest nest volume
Nest closed at night	No hens can sleep in the nest

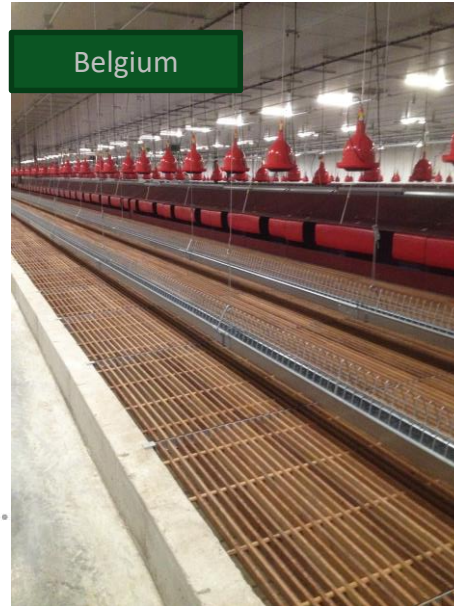

## Draught free nest

Cover egg belt	No draught in the nest for high nest acceptance
Closed woven egg belt	
Closed nest	
Closed floor

## Cruise control mat

---

Normally the egg will accelerate when rolling on a surface due to **GRAVITY**

Material specs of rubber prevents the egg from speeding during roll away **CRUISE CONTROL**
